# 1. Introduction

Department of Veterans Affairs (VA) has a need to improve the efficiencies of the outpatient medical scheduling processes through improved visibility of information. VA has created a comprehensive scheduling solution to modernize the Veterans Health Information Systems and Technology Architecture (VistA) Scheduling (VS) product.

## 1.1. Purpose

The purpose of this document is to provide a summary of the enhancements and defect corrections that make up VS Graphical User Interface (GUI) Release 1.7.35.0. The release software package is comprised of the following:

- VS GUI application 1.7.35.0
- VistA M patch SD\*5.3\*831

#### 1.2. Audience

This document targets the administrators and users of the VistA Scheduling package.

#### 2. This Release

Please see <u>Features and Functionality</u> for a summary of the enhancements and defect corrections implemented with VS GUI Release 1.7.35.0 and VistA patch SD\*5.3\*831.

# 3. Features and Functionality

The following subsections describe the features included in the VS GUI 1.7.35.0 package and VistA patch SD\*5.3\*831.

Work Item ID	Summary of Change	
[VSE-3453]	UI: Fix Phone Number Formatting in Patient Info	
[VSE-4299]	VistA: Create a tool to clean up stuck orders	
[VSE-4301]	UI: Disable the Duration Field in the New Appt Dialog for Fixed Timeslot Clinics	
[VSE-4563]	VS GUI: Patient Record Flag Scrolling to the Bottom	
[VSE-4625]	VS GUI does not unlock request when clicking away, switching patients, or reloading grid

## 3.1. Enhancements Implemented and Defects Fixes

Table 1 lists the enhancements implemented and defects corrected in VS GUI Release 1.7.35.0 and VistA patch SD\*5.3\*831. The work item ID is the Jira issue number.

**Table 1: Enhancements and Defects Fixes** 

## 4. User Documentation

The documentation distributed with VS GUI Release 1.7.35.0 is available for download from the VA Software Document Library (VDL).

# 5. Known Issues

All known issues resolved by this release were documented in ServiceNow tickets and/or Jira issues as part of the ongoing, post-warranty, sustainment effort. Appropriate issues, workarounds, and step by step resolutions are documented in Knowledge Base articles and included in the searchable ServiceNow Knowledge Base hosted by the VA Enterprise Service Desk (ESD).
